

## STUDIO DETWILER MUSIC THEORY STUDY SHEET – SCALES!

Directions: Fold this paper into four columns, lining up with those given. The first column has been given to you. Give your answers for the second column as the example row shows. Check your answers. Once you've corrected all wrong answers, fold the leftmost column under the sheet of paper, hiding it from view. Use your corrected answers from the 2<sup>nd</sup> column to quiz yourself on the opposite information as directed. Continue the process until all columns have been used.

I got this idea from Vocabulary learning in different classes, so you can use this for all kinds of learning— Tenor clef, bass clef, treble clef, transposition, theory, etc!

Type of Scale Assigned: \_\_\_\_\_ M / nat.m / harm.m / mel.m

Key Name	Number of flats / Sharps	(fold column 1) Key Name	(fold column 2) Number of flats/sharps
<i>Ex. A (Major)</i>	<i>3 sharps</i>	<i>A Major</i>	<i>3 sharps</i>
B $\flat$			
C			
F			
G $\flat$			
B			
E $\flat$			
F $\sharp$			
E			
C $\flat$			
D			
A $\flat$			
C $\sharp$			
D $\flat$			
G
